STANDPIPE DRAIN BUNDLE

Bleeder holes in the

base allow water to

be drained without fully removing the

standpipe.

1-1/8" Qwik-Lok™, MB-001

Keep your fish healthy and maintain a consistent water level in your livewell with Flow-Rite's Standpipe Drain Bundle. The livewell can be easily drained by removing the standpipe or by unscrewing it to expose small drain holes in the base.

INSTALLATION TIPS:

flourite

- Standpipe may be cut to desired height using a PVC cutting tool.
- Secure all fittings. Marine sealant may be used with thru-hull fittings.
- Once assembled, slide Qwik-Lok locking ring forward, into the locked position.
- Cut hose to desired length.
